

SUNSTREAM.TV

The sun live. (Placebo) Vitamine D!

screenshot of <http://www.sunstream.tv/>, the
sun live at that moment, variable dimensions
An ongoing movie on internet of the last uploaded
images of the SOHO-satelite.

Technical:

- www.sunstream.tv is a live film from the sun composed out of real-time photographs taken by the SOHO satellite from NASA. This becomes
- a live movie by blending and filtering the second last photo and the last photo taken of the sun. This process will go on forever.

a healthy shiny placebo person***

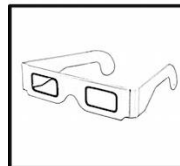

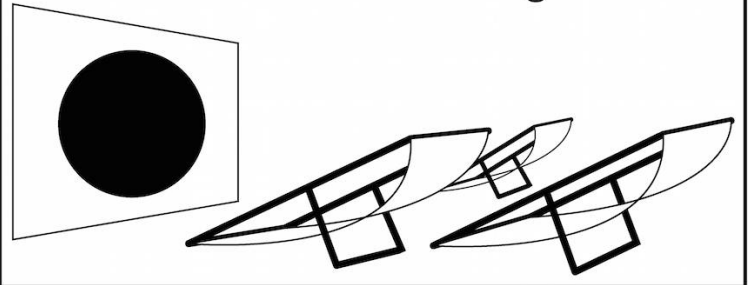

By going to www.sunstream.tv,
you will find yourself virtually
recharging whilst staring into
the eternal fire, the sun.

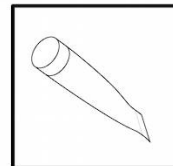

Vitamine D - Sunbathing

+

Jo KMO
Caimo

People see the 3D-sun while sunbathing and using self-tanning sunscreen for both external and internal
External: apply sunscreen before sunbathing. Works SOFTENING and HEALING. Internal: energy paste with cacao butter, sun powder and Vitamine D. Works ENERGIZING and STIMULATING. *SMAK, Ghent(B)*

A hotspot is a physical location where people may obtain sunstream.tv access.
It would be fantastic to have hotspots all around the world.
