

Als dagen wandelen .. loop ik door
 Gedaan met wachten
 voor ik het wist stond ik daar
 achteren of overbodig

wij stromen door te geven
 nemen om te leven
 schrijven om te delen
 willen meer en minder
 willen ballans vinden
 komen.. bewonderen en hopen op wat
 beter kan

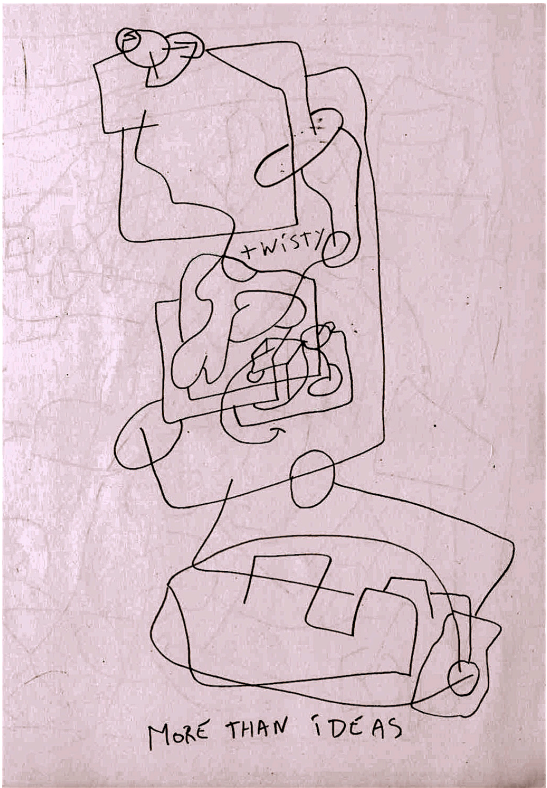

Ik kan niet meer ademen.

- Spirit Art -

Art that comes from your spirit. By Manifesting your Mind and soul Energy on paper. From spirit to matter. How it's done: first you close your eyes, and think about something that gives you peace and pleasure, a problem you want to work on or a goal that you want to accomplish. You write that on the back of the page.

Then you take a pencil with your weakest hand, with your eyes closed you draw on the paper, guided by your soul and spirit. After that you open your eyes, you take the pencil in your strongest hand you smooth out all the corners. That will help you to create new Nero pathways. You are now rewiring your brain. Spirit art is based on neuro graphica.
